MEMORANDUM FOR: Below-listed Addressees

SUBJECT : Sanitized Photography from Mission 6017

1. The Army (Mr. Ray E. Adcock), Navy (Commander J. Larsen), Air Force (Major Robert J. Coursey and Major Franklin L. Allen), and HTAUTOMAT (Mr. Arthur C. Lundahl and [redacted] representatives met with the undersigned this morning to develop a method of operation for securing needed sanitized materials from Mission 6017. 25X1A

2. It was agreed that:

a. Representatives of the Army, Navy, and Air Force would meet with a representative of Mr. Lundahl at HTAUTOMAT this afternoon to go over the original negative (ON) on 6017 to identify those frames requiring sanitization.

b. Each Service would list its requirements in order of priority. HTAUTOMAT would proceed to produce a duplicate positive (sanitized) on, say, the first ten of each agency's list initially and subsequent groups as rapidly as feasible, taking into account other demands upon HTAUTOMAT's facilities and personnel.

c. Each agency will thereupon arrange for reproduction of additional copies of sanitized material from the DP provided by HTAUTOMAT.

3. The CIA TCO requested the Army, Navy, and Air Force to designate a representative who would be responsible for transmitting all requests for TALENT or sanitized reproductions from all future mission ONs at HTAUTOMAT. The CIA TCO requested that these representatives be urged to investigate carefully each request for reproduction inasmuch

as any requirements levied on HTAUTOMAT necessarily affect the interests of all. Already in the case of 6017 HTAUTOMAT has provided over 6,000 contact prints and several hundred enlargements. Every requirement cannot be met because there are definite limitations in man power and facilities. A prodigal use of these assets can only hurt all of us.
